

Machine Intelligence and Robotic Control

Guest Editorial:

Special Issue on Force Control of Advanced Robotic Systems 43

Urbano Nunes and Luigi Villani

Papers:

Active Suspension Control of a Quadruped Walking Robot 45

Kan Yoneda, Hiroyuki Iiyama, and Shigeo Hirose

Impedance Control of Cooperative Manipulators 51

Fabrizio Caccavale and Luigi Villani

Force Control with a Kalman Active Observer Applied in a Robotic Skill Transfer System 59

Rui Cortesão, Ralf Koeppe, Urbano Nunes, and Gerd Hirzinger

Combining Force Control and Visual Servoing for Planar Contour Following 69

Johan Baeten, Walter Verdonck, Herman Bruyninckx, and Joris De Schutter

Intrinsically Passive Control and the IPC-Supervisor Architecture 77

Stefano Stramigioli

Triangular Force/Position Control with Application to Robotic Deburring 83

Gianni Ferretti, GianAntonio Magnani, and Paolo Rocco
