

Machine Intelligence and Robotic Control

Papers:

**Reduced-Order Perfect and Standard Observers for Singular Continuous-Time
Linear Systems** 93

Tadeusz Kaczorek

**Design of Fuzzy Controller for Robot Motion by Combined Global and Local
Learning** 99

Gancho Vachkov, Ovidiu Popovici Vlad, and Toshio Fukuda

**Prototyping of a MPC Compensator for a Compliant Positioning System with Fric-
tion and Comparison to a LQG Control** 107

*Hermann Henrichfreise, Dan S. Neculescu, Martin Pähle, and Stephanie
Verbit*

**Stability Analysis of Robust Control Using Higher Order Derivatives of Universal
Learning Networks** 117

Yunqing Yu, Kotaro Hirasawa, Jinglu Hu, and Junichi Murata
