

Machine Intelligence and Robotic Control

Special Issue on

Underactuated Robot Manipulators

Guest Editorial:

Special Issue on Underactuated Robot Manipulators

75

Keigo Watanabe

Papers:

Underactuation in Robotic Grasping Hands

77

Thierry Laliberté, Lionel Birglen, and Clément M. Gosselin

Discrete-Time Path Planning and Control of a Highly Underactuated Manipulator

89

Dirk Weidemann, Norbert Scherm, and Bodo Heimann

Control of Free-Joint Manipulators with Only One Actuator upon Dynamic Behavioral Analysis

99

Takahiro Suzuki and Yoshihiko Nakamura

Underactuated Manipulators: Control Properties and Techniques

113

*Alessandro De Luca, Stefano Iannitti, Raffaella Mattone,
and Giuseppe Oriolo*

Evolution of Underactuated Robots and Control Techniques

127

Lanka Udawatta, Keigo Watanabe, Kiyotaka Izumi, and Kazuo Kiguchi
